## BOTTLE LEAK TEST MACHINE

By

**BEAUTO SYSTEMS PVT. LTD.**

# BOTTLE LEAK TEST MACHINE

# BOTTLE LEAK TEST MACHINE

## Product Features

- Compact in size
- Light weight Aluminium frame
- Adjustable test pressure
- High accuracy analog testing process
- Positive pressure leakage test
- Adjustable frame for different bottle sizes
- Zero pressure loss on rubber seal \* (with in test limits)
- Adjustable cycle time
- Testing capability -1200 bottles /hr
- Standard pressure line fixture
- 7" HMI display
- Fail proof PLC control testing
- Emergency STOP button
- Alarm (Running cycle, Emergency)
- Sensor accuracy ( $\pm 0.5\%$  full scale)
- Custom company logo display
- 50 mm cylinder stroke length
- 2 KVA power
- No. of stations as per requirement
- Data logging
- Password protection as per authorization
- Optional internet connectivity and remote status monitoring
- One year service warranty

## Alternative applications

- Air leak test
- Water leak test
- Air + water leak test
- Volume leak test
- Vacuum leak test

## Product Description

Type of Testing Machine	Bottle leak test
Brand	Beauto System
Display Type	Digital
Measurements	Analog, Digital
Weight	60 KG
Voltage	230V AC
Automatic grade	Semi/ full automaticic
Frequency	50 Hz
Power	2 KVA
Phase	Single phase
Display unit	Bar, PSI
Test pressure	0 to 2 Bar (Adjustable)
Cycle time	0 to 5 Sec (Adjustable)
Working pressure	2-3 Bar
Test time	1 to 5 Sec (Adjustable)
Control	PLC/ Embedded
